2025/26 School Circular No.15

25<sup>th</sup> September 2025

Dear F.1-F.3 Parents/Guardian,

### **Matters Regarding Music Lessons**

Our school has always placed great emphasis on the holistic and balanced development of students. Music plays a key role in cultivating correct values and attitudes. School music education shoulders the responsibility of promoting the all-round development of students. For instance, through consistent music practice, students can develop a resilient and diligent attitude as well as a disciplined lifestyle. By participating in group rehearsals and performances, students can learn values and attitudes such as respect for others, a sense of responsibility, and team spirit.

Learning music also helps shape students into well-rounded individuals. On the one hand, music involves objective and scientific principles, such as the requirements for pitch (frequency) and rhythm (timing). On the other hand, it is rich in subjective emotions. Thus, music education contributes to students' physical and mental well-being, their development in all five aspects of education, and the cultivation of correct values and attitudes. It plays a vital role in holistic development and is an indispensable part of it.

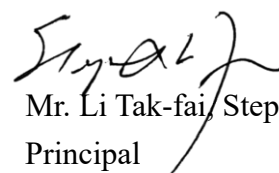

Starting this year, music lessons for Form 1 and Form 2 students will include learning to play a musical instrument—the ukulele. If you wish to purchase the instrument, music books, or workbooks through the school, please submit the reply slip and payment to the music teacher, Ms. Yam Leung Ying, by Friday, October 3. If you have any questions, please contact Ms. Yam at 25518285.
