### Develop school-based internationalized curriculum

**W**e formed partnership with Catholic Mission School in 2016 in order to continue the mission of nurturing talents for the world through the school-based internationalized curriculum which can cater for the diverse needs and abilities of students. Students can be streamed to take the local and international exams like IGCSE, GSE, IELTS or HKDSE to fulfill their dream of studying in tertiary institutions. Cloud learning platform, cross-curriculum life-wide learning will break the boundary of learning and facilitate a learning model of a globalized world.

### Virtual Cloud STEAM cross-curriculum learning

**T**o nurture IT and enterprises talents, the Virtual Cloud STEAM cross-curriculum learning is being implemented. Students can demonstrate their creativity through service in the community. Connecting classroom to the Cloud network can break the boundary of traditional classrooms. The Internet resources help various learning paradigms such as e-learning, independent learning and collaborative learning.

*YCK2 enriches students' learning experience by various activities to give every student a chance for self-accomplishment.*

### **'Garden of Dreams' Joint School Visual Arts Exhibition**

**T**he Joint School Visual Arts exhibition (Art without boundary- Garden of Dreams) was held with our partner schools in Hong Kong Central Library. Students' works received plenty of praise from the guests. 47 YCK2 students demonstrated their talents and expressed their kindness and joy through photography and watercolor painting.

### **Science & Maths Carnival in neighbourhood**

**Y**CK2 teachers and students held the Science & Maths Carnival in neighbourhood for 20 companion schools. There were talent shows, stall games and meeting with World Leaders. The stall games included experiencing the Segway, virtual campus of YCK2, amazing science, and mind-racking games, etc. All these have shown the creativity and organizational skills of YCK2 students.
